Subject: **Notice of Complete Application for Permit Number SOP-99013**  
**ANR Pipeline Company, Cottage Grove Compressor Station**  
**Cottage Grove, Henry County, Tennessee**

Dear Mr. Fortner:

The Division of Water Resources (the division) acknowledges the receipt of a permit application in our office on January 30, 2015. Rules of the Tennessee Department of Environment and Conservation, Division of Water Pollution Control, Chapter 1200-4-5-.05 (2): *Permit Application, Issuance*, state, in part:

*"The applicant will be provided notice of completeness of the application and re-submitted material within 30 days of a determination that such material constitutes a complete application. This provision does not preclude the commissioner from later requesting additional material that subsequent to the notice of completeness is determined to be necessary for permit processing."*

Our review of the permit application showed that you have submitted all the information required for the permit reissuance. If your complete application was mailed to our office 180 days prior to the current permit expiration date of March 31, 2015, and the permit is not reissued by that date, discharges from the facility will be automatically authorized through administrative extension of the current permit.

If you have questions, please contact the division at your local Field Office at 1-888-891-TDEC; or, at this office, please contact Miss Julie Harse at (615) 532-0682 or by E-mail at [Julie.Harse@tn.gov](mailto:Julie.Harse@tn.gov).

Sincerely,

Vojin Janjić  
Manager, Water-Based Systems
